## Drilling Temporarily Suspended, Mt Eureka Project

Cullen's RC drilling programme at Mt Eureka, which commenced on the 5 May, has been temporarily suspended due to widespread heavy rain across the project area. Cullen personnel and the drill rig and crew have left site.

Cullen will re-commence the RC drilling programme as soon as practicable.

### BACKGROUND

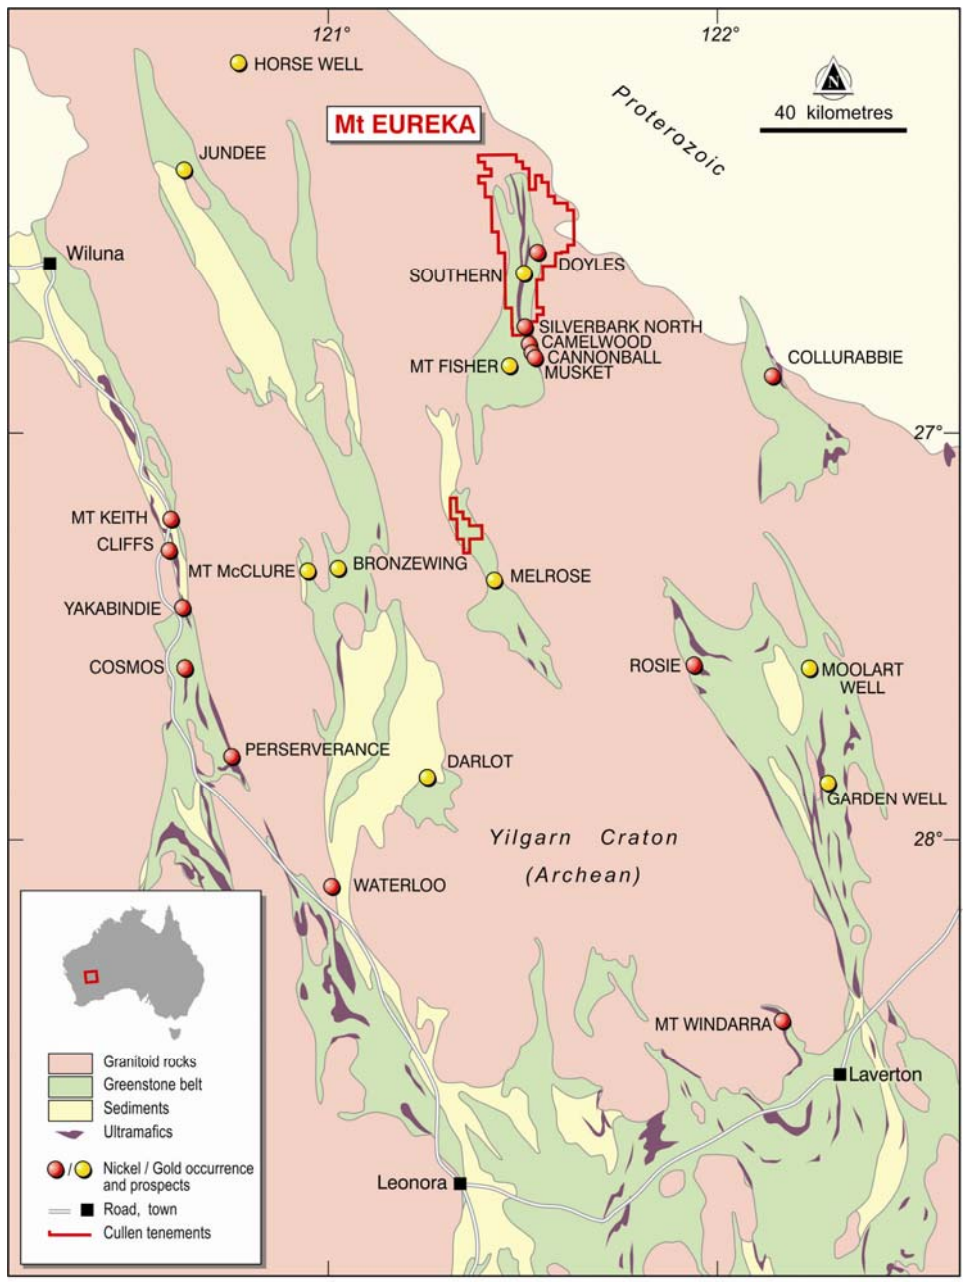

Cullen Resources Limited (Cullen) holds 100% of approximately 650km<sup>2</sup> of approved tenure\* in the Mt Eureka Greenstone Belt in the North Eastern Goldfields of Western Australia which includes multiple targets for nickel sulphides and gold. The high nickel prospectivity of Cullen's ground is confirmed by the discovery of nickel sulphides by Rox Resources Limited (Rox) at Camelwood and Cannonball – Musket (Fisher East Project), located a few kilometres along strike to the south of Cullen's tenement boundary (Rox ASX release, ASX: RXL of 3/10/2013 describes the maiden mineral resource for Camelwood and ASX release of 10/1/2014 describes discoveries at Cannonball and Musket).

In March, 2014, Cullen completed RC drilling (8 holes for 1216m) at its Mt Eureka project exploring four EM conductors and geological/geochemical targets for nickel sulphide mineralisation at two prospects: Doyles and Silverbark North – as reported to the ASX on 14 April, 2014.

**ATTRIBUTION:** Competent Person Statement

The information in this report that relates to exploration activities and results is based on information compiled by Dr Chris Ringrose, Managing Director, Cullen Resources Limited who is a Member of the Australasian Institute of Mining and Metallurgy. Dr. Ringrose is a full-time employee of Cullen Resources Limited. He has sufficient experience which is relevant to the style of mineralisation and types of deposits under consideration, and to the activity which has been undertaken, to qualify as a Competent Person as defined by the 2012 edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves”. Dr. Ringrose consents to the report being issued in the form and context in which it appears.
